## VEGETAL PEN

## BIO-S!

### Consider the environment when choosing your promotional pen:

Vegetal Pen and Bio-S! are two eco-friendly pen models from Italian Stilolinea. These pens are manufactured in a patented and eco-certified PLA plastic (Ingeo®) from NatureWorks - a plastic that is derived from plant fibers which makes it biodegradable. Accordingly and unlike other plastic pens, these pens can be composted (except refill and spring) and re-enter the earth's natural cycle. So, if you are looking for a stylish and functional promotional pen that is truly eco-friendly, Vegetal Pen or Bio-S is definitely your best choice.
