

## VEGETAL PEN GREEN - A COMPOSTABLE BALL POINT PEN!

A eco-friendly pen made from certified PLA-plastic, Ingeo®. Ingeo® is a polyester produced by NatureWorks and made from plant fibers which makes it both biodegradable and compostable (not refill and spring). In addition, the manufacturing of PLA uses only a third of the energy that traditional ABS plastic requires, i.e. it burdens the Earth with 66% less Co2. Vegetal Pen Green has green pen body, coloured rifled grip and a printable clip with ecolabelling.
