360° COMMUNICATION PENS AND PRICES 2021:

CREATE YOUR OWN PROMOTIONAL PEN WITH 360 COMMUNICATION - DO THIS:

- 1. Start with you message.** What does your logo look like? Does it have any graphic elements that can be picked up in a 360 design? Maybe there is a picture or a particular pattern associated with your business? Think about what you want to convey both in text and in the form of feeling.
- 2. Select the pen.** To the left are the pen models that can be labeled with 360 communication. Choose the one that best suits your message. If the logo is large, you may choose a pen with larger clip. If you want a more luxurious feeling, you may choose a pen with details in chrome. Use standard colours or make your own combinations of colours and details.
- 3. Wich 360 techniques do you want to use?** Found the decision on the message and the feeling you want to convey. Is a visual result enough or do you want a 3D effect so that the print also gives a tactile experience?
- 4. Send us your logo** in high resolution and in vector, together with your possible thoughts and ideas, and we will shortly get back to you with quotation and a couple of diffrent print sketches.

PATTERN/ CIRCULAR SCREEN PRINT

Communication 3^[6].0

Upgrade your visibility

PATTERN/CIRCULAR SCREEN PRINT

Pattern/Circular screen print is preferably a pattern printed with or without text in one or more colours from the Pantone scale. The rotating screen print is realized before the pen assembly which allows you to customize the whole pen barrel, even under the clip. The printed pattern creates a personal impression and immediate attention.

The picture above shows E-Venti Soft with Pattern/Circular screen print on the pen body in 1 color, and a 2-color print on the clip.

DIGITALY/DIGITAL TRANSFER

Digitally is the digital printing technique that enables you to reproduce photographic images to the smallest detail. The result is a detailed image for high-impact communication on a pen that will certainly not go unnoticed. Also with this technique, the entire pen surface can be used for your personalization.

The picture above shows E-Fifty with Digitaly/Digitaltransfer (4-colours) on the pen body and 1-colour print on the clip.

I-LIGHT 3D/RAISED 3D PRINT

The I-Light technique gives your communication greater impact and emotion, having your logos and graphics reproduced with a thickness that is perceivable by touch. Moreover, it enhances the high brilliance of UV colours by alternating lights and shades.

The picture above shows E-Space Solid with I-Light 3D/Raised 3D print in 2 different colours on the pen body.
